¹ "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of Listing Rule 4.10.3.

Under Listing Rule 4.7.3, an entity must also lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX. The Appendix 4G serves a dual purpose. It acts as a key designed to assist readers to locate the governance disclosures made by a listed entity under Listing Rule 4.10.3 and under the ASX Corporate Governance Council's recommendations. It also acts as a verification tool for listed entities to confirm that they have met the disclosure requirements of Listing Rule 4.10.3.

The Appendix 4G is not a substitute for, and is not to be confused with, the entity's corporate governance statement. They serve different purposes and an entity must produce each of them separately.

² Tick whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where your corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.

³ Throughout this form, where you are given two or more options to select, you can, if you wish, delete any option which is not applicable and just retain the option that is applicable. If you select an option that includes "OR" at the end of the selection and you delete the other options, you can also, if you wish, delete the "OR" at the end of the selection.

Introduction

This Corporate Governance Statement (Statement) outlines the key aspects of BNK Banking Corporation Limited's (BNK or the Company) corporate governance framework.

BNK is committed to ensuring that its policies and practices reflect a high standard of governance. The Board of Directors (the Board) of BNK has adopted a comprehensive framework of corporate governance, designed to properly balance performance and conformance. The Board endorses the ASX Corporate Governance Principles and Recommendations (4th Edition) (ASX Recommendations) as published by the ASX Corporate Governance Council and has adopted corporate governance charters and policies reflecting those ASX Recommendations, to the extent appropriate having regard to the size and circumstances of the Company.

Throughout the 2026 financial year, the Company's governance arrangements were consistent with the ASX Recommendations, unless otherwise stated. Where the Company's governance practices differ from the ASX Recommendations, the reasons for those differences are explained in this Statement.

This Statement is current as at 27 August 2026 and has been approved by the Board of the Company.

The Chair builds and maintains an effective working relationship with the CEO and encourages contribution by all Board members.

Board Committees

Whilst at all times the Board retains full responsibility for guiding and monitoring the Company, it makes use of Board Committees in discharging its stewardship. To assist the Board to carry out its responsibilities, the Board has established an Audit Committee, a Risk & Compliance Committee, a Remuneration Committee and a Credit Committee. The roles and responsibilities of these Committees are discussed throughout this Statement where relevant.

These Committees review matters on behalf of the Board and as determined by the relevant Charter:

- Refer matters to the Board for decision, with a recommendation from the relevant Committee, and / or
- Determine matters (where the Committee acts with delegated authority), which the Committee then reports to the Board.

Each Board Committee reports regularly to the Board and the minutes of Committee meetings are available to the Board.

Board Renewal and Tenure

The Constitution of the Company specifies that at each Annual General Meeting (AGM), at least one of the Directors will retire from office and may stand for re-election.

The policy of the Board is that Non-Executive Directors (other than the Chair) are normally expected to serve a term of nine years from the date of first election by shareholders, subject to re-election by shareholders as required under the Constitution and the ASX Listing Rules.

That term may be extended where, at the end of the initial nine-year period, the Board determines that such an extension would be of benefit to the Company, and the Director is agreeable. On an exception basis, the Board may annually exercise its discretion to further extend the term of a Director should the circumstances be such that the Board deems it appropriate.

Corporate Governance Statement

Director independence is considered to diminish after ten years, unless the Board can demonstrate otherwise. The Company has applied a more conservative nine-year threshold. Any extension of tenure will be supported by demonstrable evidence of ongoing strategic contribution and alignment of skills.

The Chair may serve a maximum term of twelve years from the date of first election by shareholders, and this includes any term served as a Director prior to being elected as the Chair.

The Company values a balanced Board tenure mix, recognising the benefits of both long-standing experience and fresh perspectives. A twelve-year threshold for the Chair is considered appropriate where their continued leadership supports the Company's strategic continuity and regulatory stability.

Director Independence

The Board must have a majority of independent Directors at all times. Independent Directors are required to be independent of management and free of any business or other relationship that could materially interfere with the exercise of unfettered and independent judgment. The Board regularly assesses each Director's independence to ensure ongoing compliance with this requirement.

Directors are required to conduct themselves in accordance with the ethical policies of the Company and be meticulous in their disclosure of any material contract or relationship. This disclosure extends to the interests of family companies and spouses.

Directors must also strictly adhere to the participation and voting constraints in relation to matters in which they may have an interest. Each Director may from time to time have personal dealings with the Company or be involved with other companies or professional firms which may have dealings with the Company.

Details of offices held by Directors with other organisations are disclosed in the Directors' Report and on the Company's website. Full details of related party dealings are set out in the notes to the Financial Statements as required by law.

Three of the five current Non-Executive Directors of the Company have been assessed as independent Directors. In reaching that determination, the Board has taken into account the following criteria (in addition to the matters set out above):

Whether the Director has:

- Been employed in an executive capacity by the Company and there has not been a period of at

least three years between ceasing such employment and serving on the Board; or

- Within the last three years, has been a partner, Director or senior employee of a provider of material professional services to the Company; or
- Within the last three years, has been in a material business relationship (e.g. as a supplier or customer) with the Company, or an officer of, or otherwise associated with, someone with such a relationship; or
- Is a substantial security holder of the entity or an officer of, or otherwise associated with, a substantial security holder of the Company; or
- Has a material contractual relationship with the Company other than as a Director; or
- Has close family ties with any person who falls within any of the categories described above; or
- Has been a Director of the Company for such a period that his or her independence may have been compromised.

Director Induction and Training

New Directors receive a letter of appointment and a Deed of Access, Indemnity and Insurance. The letter of appointment outlines the Company's expectations of Directors with respect to their participation, time commitment and compliance with the Company's policies and regulatory requirements.

An induction process for incoming Directors is coordinated by the Company Secretary. The process is tailored to the experience and needs of each Director and includes information regarding the Company's business, strategy, governance and risk frameworks, and key policies.

The Board receives regular updates at Board meetings, access to industry-based training, workshops and meetings with experts. These assist Directors to keep up to date with relevant market and industry developments.

Directors are encouraged to undertake continuing professional development and participate in relevant governance, regulatory and industry training to maintain and enhance their skills and knowledge.

Performance reviews of the Board and its Committees

The performance of the Board, its Committees and individual Directors, is reviewed each year. Board performance evaluation is designed to:

- Review the pre-determined role of the Board and individual Directors as set out in the Company's Board Charter;

Corporate Governance Statement

- Annually assess how well Directors are discharging their responsibilities collectively by assessing the Board's effectiveness and individually by assessing the quality of a Director's contribution to general discussions, business proposals and governance responsibilities;
- Regularly evaluate the Directors' confidence in the integrity of the Company, the quality of the discussions at Board meetings, the credibility of the reports and information they receive, the level of interpersonal cohesion between Board members and the degree of Board knowledge; and
- Enable Board members, individually and collectively, to develop the key skills required to meet foreseeable requirements with timely preparation, agreed strategies and appropriate development goals.

Steps involved in the evaluation can include the completion of a questionnaire by each Director, review of responses to the questionnaire at a Board meeting and a private discussion between the Chair and the Directors.

The Chair may hold discussions with individual Directors when evaluating their performance. The Board takes this evaluation into consideration when recommending Directors who are up for re-election.

There is also an annual review of the performance of the Chair performed by the Board.

The outcomes are considered as part of the Board's overall succession planning, Director development and Committee composition.

Performance review of the CEO and other key executives

The Board assesses senior executives' annual performance evaluations which are conducted following the end of the financial year. This assessment is undertaken with the assistance of the CEO and the Remuneration Committee. The CEO and other executives are not present when the Board and Committees consider their performance and remuneration.

Details on senior executives' performance evaluations are contained in the Remuneration Report section of the Directors' Report, within the 2026 Annual Financial Report.

Selection and appointment of Directors

Due to its size, the Company does not have a separately constituted Nomination Committee. Accordingly, the Board is responsible for addressing those matters which would usually fall to a Nomination Committee and shall do so in

accordance with the Remuneration Policy and the Board Renewal and Evaluation Policy.

In performing the selection process, the Board may:

- Review its needs with a view to ensuring that there is a range of skills represented, including an understanding of the industry and market in which the Company operates, accounting, finance and legal matters;
- Develop suitable criteria for Board candidates to address any needs identified;
- Engage independent professional advisors to assist in identifying individuals to fit within the criteria developed to satisfy the needs of the Board; and
- Develop a short-list of Board candidates, taking into account the attributes of the Board candidates and each candidate's ability to fit within the existing Board.

The Board's aim is to ensure that any new appointee is able to contribute to the Board constituting a competitive advantage for the Company.

The Board assesses the skills, experience and personal qualities of these candidates. It also takes into consideration other attributes, including diversity, to ensure that any appointment decisions adequately reflect the environment in which the Company operates.

Appropriate checks are undertaken prior to appointing a person and recommending that person for election as a Director. These include checks as to the person's character, experience, education, criminal record and bankruptcy history. As a Director is a responsible person under the applicable Australian Prudential Regulation Authority (APRA) Prudential Standard, extensive background checks as to fitness and propriety are carried out before a person is appointed to the Board. Directors must also sign an annual declaration confirming they continue to be fit and proper.

Directors appointed by the Board must stand for election at the next AGM, in accordance with the Constitution.

In the Notice of Meeting for the AGM, the Company includes all material information known to the Company which is relevant to a decision whether or not to elect or re-elect a Director.

Director skills and experience

The skills, experience and expertise of each Director are described in the Company's Annual Financial Report (in the Directors' Report).

The Directors possess a range of skills which, as a group, enable the Board to discharge its obligations effectively, challenge management and contribute to the Company's strategic debate.

Corporate Governance Statement

The Board uses a skills matrix to guide its assessment of the skills and experience of current Directors, and that which the Board judges will complement the effective functioning of the Board. The skills matrix is maintained for internal governance, succession planning and Board renewal purposes and is not currently publicly disclosed. However, the Company provides information regarding the skills, experience and expertise of Directors in its Annual Report.

The matrix reflects the Board's objective to have an appropriate mix of market and industry experience and is summarised broadly as follows:

- Skill / Competency
- Financial risk management
- Strategy and development
- Financial management & accounting
- Risk Management
- Operational management
- Information technology
- Human resources
- Sales, marketing & distribution
- Project management
- Compliance – legal & regulatory

Every Director has had considerable exposure to current corporate governance practices and all Directors possess significant financial acumen.

Diversity

The Board does not have a standalone Diversity Policy given the relatively small size of the Company. However, diversity considerations are incorporated into the Company's governance, recruitment and people management practices and the Board is committed to the following principles:

- BNK believes that having a diverse workforce has important commercial and operational benefits. An equally important benefit of diversity is that it assists BNK in its ongoing efforts to make a positive contribution to the Australian community.
- BNK is committed to treating all of its staff equally irrespective of their gender, race, age, ethnicity, sexual orientation, disability or any other irrelevant difference; having in place a corporate culture where all staff feel equally welcome and valued irrespective of their gender, race, age, ethnicity, sexual orientation or disability or any other irrelevant difference; and not discriminating in the employment of staff (including the appointment of Directors) based upon a potential candidate's gender, race, age, ethnicity, sexual orientation or disability or any other irrelevant difference.

- BNK is committed to ensuring that any Board or executive appointments are made without discriminating against a potential candidate on the basis of their gender, race, age, ethnicity, sexual orientation or disability or any other irrelevant difference.

Policies

Board policies relevant to the composition of Committees and functions of the Directors include:

- The Board will consist of a majority of independent Non-Executive Directors;
- The Remuneration, Risk & Compliance, Credit and Audit Committees should consist solely of Non-Executive Directors and a majority must be independent including the Chair;
- The Chair of the Board will be an independent Non-Executive Director;
- The Audit Committee will be chaired by an independent Non-Executive Director other than the Chair;
- The Board will meet on a regular and timely basis. The meeting agendas and papers will provide adequate information about the affairs of the Company. They also enable the Board to guide and monitor management and assist in its involvement in discussions and decisions on strategy. Strategic matters are given priority on regular Board meeting agendas. In addition, ongoing strategy is the major focus of at least one Board meeting annually;
- An agreed policy that Directors are entitled to obtain access to Company documents and information, and to meet with management; and
- A procedure whereby, after appropriate consultation, Directors are entitled to seek independent professional advice, at the expense of the Company, to assist them to carry out their duties as Directors. The policy of the Company provides that any such advice is generally made available to all Directors.

Ethical Standards

Code of conduct

As part of its commitment to recognising the legitimate interests of stakeholders, the Company has established a Code of Conduct to guide compliance with legal and other obligations to legitimate stakeholders.

These stakeholders include employees, clients, customers, government authorities, creditors and the community as whole. The Company Code of Conduct was adopted by resolution of the Board and is available on the Company's website.

Corporate Governance Statement

The Company is committed to maintaining ethical standards in the conduct of its business activities. The Board actively promotes a culture of lawful, ethical and responsible conduct and seeks assurance from senior management that this culture is embedded throughout the Company. The Company's reputation as an ethical business organisation is important to its ongoing success.

The Company expects all of its Directors, senior management and employees to be familiar with, and have a personal commitment to meeting, these standards.

These standards go beyond mere compliance with laws and regulations. They also embrace the values which are essential to the Company's continued success.

The Code of Conduct requires Directors, senior management, employees and, where relevant and to the extent possible, contractors of the Company to adhere to the law and various policies of the Company referred to in this Code. The standards set out in the Code cannot, and do not try to, anticipate every situation which may pose a legal, ethical or moral issue. Therefore, the Code is not a prescriptive set of rules for business behaviour, but rather a practical set of principles giving direction to, and reflecting the Company's approach to, business conduct.

The Company's Directors, senior management and employees must conduct themselves with openness, honesty, fairness and integrity, and in the best interest of the Company in all business transactions and in all dealings with others including shareholders, employees, joint venture partners, suppliers, creditors, financiers, the financial markets, governments and the general public.

Conflicts of Interest

In accordance with the Company's Constitution and the *Corporations Act 2001* (Corporations Act), Directors are required to disclose to the Board any actual or potential conflicts of interest, including any material contract in which they may have an interest. In compliance with section 195 of the Corporations Act, any Director with a material personal interest in a matter being considered by the Board will not vote on the matter or be present when the matter is being considered.

Share Trading

The Board has adopted a Securities Trading Policy. Under that Policy, Directors are permitted to deal with the Company's securities only within certain periods, as long as they are not in the possession of unpublished price-sensitive information.

These periods include share trading closure periods, which conclude and re-open at 10.00am on the next trading day after the announcement to the ASX of the quarter 1 and 3 trading updates, the half yearly results, and the full year results.

The Policy also requires that Directors do not deal on the basis of considerations of a short-term nature or to the extent of trading in those securities. Similar restrictions apply to Executives of the Company, which is in addition to the prohibition of any trading (including hedging) in positions prior to vesting of shares or options.

Executives who report to the CEO are also prohibited from:

- Any hedging of publicly disclosed shareholding positions; and
- Entering into or maintaining arrangements for margin borrowing, short selling or stock lending, in connection with the securities of the Company.

A copy of the Securities Trading Policy is available on the Company's website.

Corporate Governance Statement

Risk Management

The Company recognises that managing risk is an integral part of its day-to-day core business activities, and the better risk is managed, the more likely it is that the Company will achieve or exceed its objectives.

The Board of Directors is ultimately responsible for the effective governance of the Company's risk management while the Company's executives are responsible for ensuring effective risk management, including the implementation of strategies to reduce risks, within their operational area on a day-to-day basis.

Shareholder value is driven by the Company taking considered risks. Risks are assessed by identifying potential events and evaluating the combination of the consequences of an event and the associated likelihood of occurrence. Risks are then assessed against the Company's risk appetite to ensure they are within the boundaries of activity that the Board intends.

The Board and its Risk & Compliance Committee operate under the direction of their respective Charters. The Board Charter stipulates, among other things, that:

- The Board is responsible for ensuring that adequate risk management procedures exist and are being used;
- Ensuring that procedures are in place designed to verify the existence and effectiveness of accounting and financial systems and other systems of internal control and business risk management; and
- The CEO is responsible for identifying and managing operational and other risks and, where those risks could have a material impact on the Company's businesses, formulating strategies for managing these risks for consideration by the Board.

The CEO and the CFO have given the Board a declaration in accordance with section 295A of the Corporations Act. The CEO and CFO confirmed that the declaration was founded on a sound system of risk management and internal compliance and control which implemented the policies adopted by the Board and which was operating effectively.

Prior to approval of the Company's financial statements for the FY2026 financial year, the CEO and the CFO gave the Board a declaration that, in their opinion, the financial records of the Company had been properly maintained in accordance with the Corporations Act, that the financial statements

complied with the appropriate accounting standards and gave a true and fair view of the financial position and performance of the Company, and that their opinion had been formed on the basis of a sound system of risk management and internal compliance control which was operating effectively.

Risk & Compliance Committee

The Risk & Compliance Committee assists the Board with overseeing the risk profile of the Company, approves the Risk Management Strategy with the context of the risk appetite determined by the Board, and in making its annual declaration to APRA on risk management.

The Risk & Compliance Committee oversees the Company's risk management framework. This includes credit, capital, interest rate risk in the banking book, liquidity and funding, operational, insurance, compliance (including regulatory), and reputational risks assumed by the Company in the course of carrying on its business. It reviews regular reports from management on the measurement of risk and the adequacy and effectiveness of the Company's risk management and internal controls systems.

The Committee's members are:

- Mr Raj Venga (Chair)
- Mr David Gration
- Mr Jon Denovan

A copy of the Risk & Compliance Committee Charter is available on the Company's website.

Strategic risks are governed by the Board, with input from the various Board Committees. Tax and accounting risks are governed by the Audit Committee.

A key purpose of the Committee is to help formulate the Company's risk appetite for consideration by the Board and agreeing and recommending a risk management framework to the Board that is consistent with the approved risk appetite.

This framework, which is designed to achieve portfolio outcomes consistent with the Company's risk-return expectations, includes:

- The Company Risk Appetite Statement;
- High-level risk management policies for each of the risk areas it is responsible for overseeing; and
- A set of risk limits to manage exposures and risk concentrations.

Corporate Governance Statement

The Committee monitors management's compliance with the Company risk management framework (including high-level policies and limits).

It also makes recommendations to the Board on the key policies relating to capital (that underpin the Internal Capital Adequacy Assessment Process), liquidity and funding and other material risks. These are overseen and reviewed by the Board on at least an annual basis.

The Committee reviews significant correspondence with regulators, receives reports from management on regulatory relations and reports any significant regulatory issues to the Board.

The Risk & Compliance Committee Charter states that the Committee will meet at least four times a year, or as often as required.

Risk Management Framework

A risk management framework is in place to identify, assess, manage and report risks and risk adjusted returns on a consistent and reliable basis. The risk management framework was reviewed during the year, and the Board satisfies itself that the Company's risk management framework remains appropriate for the nature, scale and complexity of the Company's operations.

Risk Management Function

The Company also has a designated risk management function that:

- Is responsible for assisting the Board, Board Committees and senior management to develop and maintain the risk management framework;
- Is operationally independent and managed by an appropriately qualified and designated Chief Risk Officer;
- Has reporting lines to the Board, Board Committees and senior management to conduct its risk management activities in an effective and independent manner;
- Has access to all aspects of the Company that have the potential to generate material risk, including information technology systems and systems development resources; and
- Is required to notify the Board of any significant breach of, or material deviation from, the risk management framework.

Material Exposure to Economic, Environmental and Social Sustainability Risks

The Board recognises that environmental, social, governance, climate-related and other sustainability risks may impact the Company's operations, customers, reputation and long-term performance.

The Company monitors its exposure to all risks, including economic, environmental and social sustainability risks.

There are a number of material business risks that could adversely affect the Company and the achievement of the Company's financial performance objectives. Material business risks are described above under the Risk Management section and are identified and managed as part of the risk management framework and also in the Annual Financial Report.

Credit Committee

The Credit Committee assists the Board in overseeing the Company's credit risk profile and credit risk management framework, aligned with the Company's risk appetite. Its key purpose is to provide objective oversight, ensuring credit risk is managed prudently given the size and complexity of the Company.

The Committee reviews and monitors credit risk strategies, credit portfolios, exposure limits, and compliance with credit risk policies. It also oversees delegated lending authorities and considers transactional credit submissions exceeding business unit limits. Some of the Committee's responsibilities may also be actioned by the Risk & Compliance Committee, given the common membership of both Committees.

The Committee comprises at least three Non-Executive Directors, a majority of whom are independent, with financial literacy and credit risk expertise.

The Committee's members are:

- Mr David Gratton (Chair)
- Mr Jon Denovan
- Mr Calvin Ng

All Directors are entitled to attend Credit Committee meetings, promoting transparency and alignment with Board oversight. Meetings are held as often as may be required.

A copy of the Credit Committee Charter is available on the Company's website.

Corporate Governance Statement

The Company's Continuous Disclosure Policy is available on the Company's website. This sets out the processes to ensure that shareholders and the market are provided with full and timely information about the Company's activities in compliance with continuous disclosure requirements.

The Continuous Disclosure Policy and processes are in place throughout the Company to ensure that all material matters which may potentially require disclosure are promptly reported to the CEO. This is achieved via an established reporting line to the CEO. Matters reported are assessed and, where required by the ASX Listing Rules, advised to the market.

The Company Secretary is responsible for facilitating the release of the Company's ASX announcements and ensuring that such information is not released to any person until the ASX has confirmed its release to the market.

All material market announcements are provided to the Board prior to release to the ASX, or where circumstances require immediate disclosure, are provided to the Board as soon as practicable after release.

Following release to the ASX, all announcements and investor presentations are promptly published on the Company's website.
